

Preview 2/2009

Thieme Publishers New York

Dear colleagues and publishers,

*We are presenting you here-attached the titles published by our New York colleagues in a separate preview. **Please note that the minimum advance payment upon signature of contract in 2009 is € 2,600.00. Please do not order titles for subjects which would in your language not allow for a print run or a retail price high enough to cope with this amount.** Here are the contents of our current preview:*

	<i>Page</i>
<i>Audiology</i>	<i>2</i>
<i>Neurology</i>	<i>2</i>
<i>Neurosurgery</i>	<i>3</i>
<i>Ophthalmology</i>	<i>3</i>
<i>Radiology</i>	<i>4</i>

If you are interested in any of the titles, please do not hesitate to send me an email, mentioning author, original title and title number (TN).

With best regards, cordiali saluti, saludos cordiales et mes salutations les meilleures,

Barbara Pfeifer, International Rights Manager

Study Guide

Kranzler: Handbook of Neurosurgery

Aug. 2009, 560 pp., 12 ill., € 79.95, TN 891195, TPN

Based exclusively on Greenberg's Handbook of Neurosurgery, 6th ed., here is a completely unique Q&A review book that is ideal for self-study and exam preparation.

- More than 5,000 questions and answers in different formats (multiple-choice, true/false, open-ended etc.), all of which are linked to a specific passage in Greenberg's handbook.
- Helpful features like hints, mnemonics, and study charts make this workbook a must-have for any neurosurgical resident

User group: Neurosurgeons

First option with the publishers of Greenberg, Handbook of Neurosurgery.

OPHTHALMOLOGY

A Color Manual of Ophthalmoscopy

Tabandeh/Goldberg: The Retina in Systemic Disease

June 2009, 370 pp., 350 ill., € 54.95, TN 891055, TPN

- Concise and clear descriptions of retinal signs and their differential diagnosis, as well as their corresponding retinal manifestations of systemic disease
- Basic and practical aspects of ophthalmoscopy
- Numerous high-quality full-color photographs demonstrate the various retinal manifestations of systemic disease and illustrate important concepts

User groups: General ophthalmologists, optometrists, students and residents of ophthalmology

All rights available.

Non-exclusive industry deals: 500 copies Pfizer, 1.500 copies Retina-Vitreous Associated Medical Group.

RADIOLOGY

Siskin: Interventional Radiology in Women's Health

June 2009, 290 pp., 140 ill., € 99.95, TN 891046, TPN

This book is a practical resource for the current applications of interventional radiology in the care of female patients.

An indispensable reference:

- Introduction to the role of interventional radiology in women's health, discussing such topics as specific concerns relevant to the female patient and safety considerations related to the provision of care
- Common clinical problems and conditions unique to women, including uterine fibroids, infertility, pelvic pain, osteoporosis, and varicose veins
- Interventional procedures for treating breast cancer and key recommendations for further practice development
- Clinical review of each disease entity at the beginning of each section
- Detailed discussion of specific procedures with descriptions of indications, evaluation, techniques, and possible complications
- Insights from leading specialists in such fields as obstetrics and gynaecology, internal medicine, and orthopaedics presented in "Clinical Perspective" chapters

User groups: Interventional radiologists, obstetricians, gynaecologists

All rights available.
