

Preview 2/2010

Thieme Publishers New York

Dear colleagues and publishers,

We are presenting you here-attached the titles published by our New York colleagues.

Please note that the minimum advance payment upon signature of contract in 2010 is € 2,610.00. Please do not order titles for subjects which would in your language not allow for a print run or a retail price high enough to cope with this amount.

These are the subjects of our current preview:

	Page
Neurosurgery	2
Orthopaedics	3
Otorhinolaryngology	3
Radiology	4

If you are interested in any of the titles, please do not hesitate to send me an email, mentioning author, original title and title number (TN).

With best regards, cordiali saluti, saludos cordiales et mes salutations les meilleures,

Barbara Pfeifer, International Rights Manager

Highlight!**NEUROSURGERY****Greenberg: Handbook of Neurosurgery**

7th fully updated ed., Apr. 2010, 1,350 pp., 130 ill., € 89.95, TN 891326, TPN

Dr. Greenberg's classic text covers the breadth of neurosurgery and its allied specialties. It provides the latest information on anatomy and physiology, differential diagnosis, and currently accepted principles of clinical management.

- Portable, single-volume guide packed with more than 1,300 pages of practical information
- Including thousands of literature citations, handy cross-references, and a thorough index

New

- Detailed coverage of blunt cervical arterial injuries; brain mapping; new grading systems for cervical and thoracolumbar fractures; radiation safety for neurosurgeons; organ donation after cardiac death; and expanded discussion of endovascular techniques
- Numerous updates
- Return of description of basic surgical procedures
- A practical new feature called "Booking the Case" supplies helpful information about scheduling surgery and obtaining informed consent
- Highly valuable section on hot topics in neurocritical care
- Color highlights and full-color inserts to enhance readability

User group: Neurosurgeons, neurologists, emergency care professionals

For the previous editions, rights were sold for the following languages: Chinese (simplified characters), Japanese, Portuguese, Russian, Spanish, Turkish.

Jallo: Controversies in Pediatric Neurosurgery

June 2010, 290 pp., 160 ill., € 119.95, TN 891074, TPN

- Highly practical, balanced coverage
- Different treatment modalities and strategies available for particular diagnoses
- Concrete advice and frank commentary on alternative options for the treatment and management of specific cranial and spinal disorders
- Written by leading clinicians from around the globe
- There is no comparable title on the market

User group: Clinicians, residents, and fellows in pediatric neurosurgery

All rights available.

ORTHOPAEDICS

Khanna: MRI for Orthopaedic Surgeons

July 2010, 460 pp., 860 ill., € 129.95, TN 891022, TPN

- Essential instruction on how to approach MRI studies in everyday practice
- More than 800 MRIs and instructive illustrations to highlight key concepts related to normal anatomy and pathologic processes
- Practical discussion of how other imaging modalities correlate with MRI
- Clinical insights from leading orthopaedic surgeons and radiologists
- Clinically oriented with carefully selected visual examples

User group: Orthopaedic surgeons, residents, and fellows, orthopaedists

All rights available.

The Harms Study Group Treatment Guide

Newton et al.: Idiopathic Scoliosis

Aug. 2010, 440 pp., 640 ill., € 189.95, TN 891024, TPN

- Focused coverage of the most current evaluation and treatment guidelines for idiopathic scoliosis
- In-depth information culled from vast clinical data of the world-renowned experts in the Harms Study Group
- Curve assessment and treatment recommendations listed by curve type and pattern
- 639 high-quality illustrations, including numerous full-color clinical photographs, detailed line drawings, and complementary high-resolution radiographs

User group: Orthopaedic surgeons, neurosurgeons, spine fellows

All rights available.

OTORHINOLARYNGOLOGY

Medical and Surgical Management

Duncavage: The Maxillary Sinus

Aug. 2010, 280 pp., 300 ill., € 139.95, TN 891280, TPN

- Latest treatment options for the maxillary sinus
- Detailed analysis of the effectiveness of different surgical techniques
- High-resolution radiographs and numerous full-color photographs that aid understanding of key principles
- Accompanying DVD featuring state-of-the-art endoscopic surgical footage covering every technique cited in the text

User group: Fellows, residents and practitioners in rhinology and otolaryngology, as well as head and neck surgery

All rights available.

RADIOLOGY

Series: RadCases

Gunderman: RadCases Pediatric Imaging

June 2010, 190 pp., 300 ill., € 44.95, TN 891181, TPN

One of 12 books, in a series on the subject of oral board preparation in radiology. Each book will consist of 100 cases. An additional 150 cases will be available online.

- A variety of common and uncommon presentations covering everything in pediatric imaging
- Examples of cases physicians must diagnose immediately
- Numerous high-resolution 3-D radiographs

User group: Radiologists, pediatricians

All rights available.

A Correlative Atlas

Hashimoto: Multimodality Breast Imaging

2nd ed., May 2010, 660 pp., 810 ill., € 129.95, TN 891171, TPN

The second edition of this reference provides a detailed assessment of how to approach the integration of mammography, sonography, MRI and PET/CT in breast cancer diagnosis.

- Cases demonstrating how to appropriately integrate all modalities into diagnosing and treating breast diseases
- Generously illustrated case-based reference
- Visual collection of pathologic entities and detailed assessment of how to optimize sonographic technique

New

- Emphasis on the importance of high-resolution sonography
- Three new chapters on the use of MRI and PET in breast imaging
- Numerous new case studies – including helpful pearls and pitfalls
- Charts and outlines that provide rapid reference for the clinical workup of a lesion
- More than 800 images that help identify both mammographic and sonographic abnormalities

User group: Radiologists, mammographers, oncologists, gynecologists

All rights available.

Series: RadCases

Riascos-Castaneda: RadCases Neuro Imaging

June 2010, 220 pp., 300 ill., € 44.95, TN 891189, TPN

One of 12 books, in a series on the subject of oral board preparation in radiology. Each book will consist of 100 cases. An additional 150 cases will be available online.

- A variety of common and uncommon presentations covering everything in neuro imaging
- Examples of cases physicians must diagnose immediately
- Numerous high-resolution 3-D radiographs

User group: Radiologists, neurologists, neurosurgeons
