1 Anatomy of the Temporal Bone	1	Strategy in the Only Hearing Ear	41
The External Auditory Canal	1	Tympanostomy Tube	41
The Tympanic Membrane	1	Non-cholesteatomatous Chronic Otitis Media	41
The Ossicular Chain	1	Cholesteatoma	41
The Tympanic Cavity	1	Ossiculoplasty	42
Medial Wall	2	Neoplasm	42
Posterior Wall	2	Stapes Surgery	42
The Attic	2	Staging Strategy	42
The Antrum	2	Non-cholesteatomatous Chronic Otitis Media	42
The Labyrinth	3	Cholesteatoma	42
The Jugular Bulb	3	Stapes Surgery	42
The Carotid Artery	3	Strategy for Revision Surgery	42
The Facial Nerve	3	Canal Stenosis	43
Surgical Anatomy of the Canal Wall Down (Open)		Myringoplasty	43
Tympanoplasty	13	Ossiculoplasty	43
Surgical Anatomy of the Canal Wall Up (Closed)		Tympanoplasty in Cholesteatoma	43
Tympanoplasty	15	Stapes Surgery	43
2 Operating Room Setup	19	6 Ventilation Tube Insertion	44
Arrangement of the Room	19	Indications	44
Position of the Patient	20	Contraindications	44
Special Considerations in Stapes Surgery	21	7 General Oto-surgical Procedures	47
Preparation of the Operative Site	21	Retroauricular Skin Incision	47
Position of the Surgeon	21	Harvesting Grafting Material	49
Position of the Surgeon's Hands	21	Temporalis Fascia (Retroauricular Scar Tissue)	49
Suction and Irrigation	23	Tragal Cartilage and Perichondrium	51
Bipolar and Monopolar Coagulation	23	Split-thickness Skin Graft	55
Microscope	23	Incision of the External Auditory Canal	57
Facial Nerve Monitoring	23	Canalplasty (Calibration of the Bony Canal Walls)	65
Instruments	23	Skin Closure	77
Hints and Pitfalls for Operating Room Setup	33	8 Pre- and Postoperative Care	79
3 Anesthesia	34	Preoperative Care	79
Local Anesthesia	34	Postoperative Care	79
General Anesthesia	34	Dressing	79
Hints and Pitfalls for Anesthesia	37	Postoperative Management	79
Stapes Surgery and Transcanal Approaches	37	9 External Auditory Canal	80
Surgeries via Retroauricular Incision	37	Exostosis and Osteoma	80
4 General Technical Considerations	38	Hints and Pitfalls for Exostosis	97
Rules and Hints	38	Hints for Beginners	97
Drilling	38	Stenosis of the External Auditory Canal	97
Suction and Irrigation	40	Postinflammatory and Postoperative Stenoses	97
Hemostasis	40	Hints and Pitfalls for Canal Stenosis	103
Dissection	40	Cholesteatoma of the External Auditory Canal	103
5 Decision-Making in Middle Ear Surgery	41	10 Myringoplasty	106
How Should We Choose Our Patients?	41	Retroauricular Myringoplasty	108
Canalplasty	41	Surgical Steps	108
Myringoplasty	41	Transcanal Myringoplasty	153
Ossiculoplasty	41	Problems and Solutions in Myringoplasty	154
Tympanoplasty	41		
Stapes Surgery	41		

Pathological Status of the Anterior Part of the Tympanomeatal Flap	154	Second Stage Surgery in Open Technique	324
Thickened Tympanomeatal Flap	154	Revision Surgery after Open Technique	324
Everted Mucosa	154	Hints and Pitfalls of Revision Surgery	330
Atelectasis	155	15 Special Considerations Regarding Glomus Tumor (Class A and B)	331
Epithelialization in the Medial Aspect of the Tympanic Membrane	156	16 Problems and Solutions in Mastoid Surgery	344
Limited Epithelialization in the Middle Ear	156	Labyrinthine Fistula	344
Extensive Epithelialization in the Middle Ear	156	Bone Erosion in the Tegmen	348
Tympanosclerosis	157	Facial Nerve Paralysis	348
Extensive Defects of the Middle Ear Mucosa	157	New Bone Formation	348
Revision Myringoplasty	158	Meningoencephalic and Dural Herniation	348
Hints and Pitfalls for Myringoplasty	164	17 Stapes Surgery	355
11 Ossiculoplasty	166	Indications	355
Indications	166	Contraindications	355
Contraindications	166	Approach	355
Approaches	166	Anesthesia	355
Considerations Regarding Atelectasis and Adhesive Otitis Media	167	Problems and Solutions	389
Considerations Regarding Tympanosclerosis	169	Disease States	389
Tympanosclerosis with Intact Tympanic Membrane	169	Anatomical Variations	393
Tympanosclerosis with Tympanic Membrane Perforation	170	Surgical Trauma	397
Management of the Stapes in Tympanosclerosis ...	170	Hints and Pitfalls for Stapes Surgery	400
Ossiculoplasty in Various Situations	176	Revision Stapes Surgery	400
Closure	183	Ossicular Chain Problems	401
Hints and Pitfalls for Ossiculoplasty	212	Prosthetic Failure	402
Revision Ossiculoplasty	212	Medial Problems after Stapedectomy	404
12 Simple Mastoidectomy	218	Hints and Pitfalls for Revision Stapes Surgery	416
Indications	218	18 Obliteration of the Middle Ear	417
Landmarks	218	19 Cochlear Implant	420
13 Canal Wall Up (Closed) Tympanoplasty	221	20 Management of Iatrogenic Injuries	423
Indications	221	Bleeding from the Dura	423
Second Stage and Revision Surgery after Canal Wall Up Technique	260	Bleeding from the Sigmoid and Other Sinuses	423
Hints and Pitfalls	272	Bleeding from the Jugular Bulb	423
14 Canal Wall Down (Open) Tympanoplasty	274	CSF Leak	423
Indications	274	Labyrinthine Fistula	424
Canal Wall Down (Open) Tympanoplasty	274	Disarticulation of the Incus	424
Meatoplasty	279	Fracture of the Stapes	424
Packing and Closure	280	Tear in the Tympanic Membrane	424
Hints and Pitfalls	289	Tear in the Meatal Skin	424
Modified Bondy Technique	289	Facial Nerve Injury	424
Indications	289	References	429
Hints and Pitfalls of the Modified Bondy Technique	323	Index	431
Bondy Technique	323		
Radical Mastoidectomy	323		
Indications	323
