Endoscopy

Issue 9/2021

DEADLINES
Date of Issue: August 26th, 2021
Deadline Insertions: July 22nd, 2021
Deadline Printing Material: August 02nd, 2021

<thead>
<tr>
<th>Manuscript Type</th>
<th>Manuscript Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>Original Article</td>
<td>Endoscopic prediction of submucosal invasion in Barrett’s cancer with the use of artificial intelligence: a pilot study</td>
</tr>
<tr>
<td>Original Article</td>
<td>Clinical features and time trends associated with an endoscopically normal esophagus in active eosinophilic esophagitis</td>
</tr>
<tr>
<td>Original Article</td>
<td>Establishing key research questions for the implementation of artificial intelligence in colonoscopy: a modified Delphi method</td>
</tr>
<tr>
<td>Original Article</td>
<td>Time interval between self-expandable metal stent placement or creation of a decompressing stoma and elective resection of left-sided obstructive colon cancer</td>
</tr>
<tr>
<td>Editorial</td>
<td>As far as the AI can see</td>
</tr>
<tr>
<td>Editorial</td>
<td>Defining the next steps for artificial intelligence in colonoscopy</td>
</tr>
<tr>
<td>Editorial</td>
<td>Magnetically assisted capsule endoscopy as a mass screening tool: is it ready for prime time?</td>
</tr>
<tr>
<td>Editorial</td>
<td>Addressing false-positive findings with artificial intelligence for polyp detection</td>
</tr>
<tr>
<td>Innovations and Brief Communications</td>
<td>Screening for upper gastrointestinal cancers with magnetically controlled capsule gastroscopy: a feasibility study</td>
</tr>
<tr>
<td>--------------------------------------</td>
<td>----------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Innovations and Brief Communications</td>
<td>A novel electrocautery-enhanced delivery system for endoscopic ultrasound-guided drainage of the gallbladder and bile duct using a lumen-apposing metal stent: a feasibility study</td>
</tr>
<tr>
<td>Innovations and Brief Communications</td>
<td>Underwater cap-assisted endoscopic retrograde cholangiopancreatography in patients with surgically altered anatomy: a pilot study</td>
</tr>
<tr>
<td>Innovations and Brief Communications</td>
<td>A neural network-based algorithm for assessing the cleanliness of small bowel during capsule endoscopy</td>
</tr>
<tr>
<td>Innovations and Brief Communications</td>
<td>Benchmarking definitions of false-positive alerts during computer-aided polyp detection in colonoscopy</td>
</tr>
<tr>
<td>Masters of Endoscopy</td>
<td>How we do deep enteroscopy</td>
</tr>
<tr>
<td>Guidelines</td>
<td>Endoscopy in patients on antiplatelet or anticoagulant therapy, including direct oral anticoagulants: British Society of Gastroenterology (BSG) and European Society of Gastrointestinal Endoscopy (ESGE) guidelines-update 2020</td>
</tr>
<tr>
<td>Guidelines</td>
<td>Implementing European Society of Gastrointestinal Endoscopy recommendations for small-bowel capsule endoscopy into clinical practice: results of an official ESGE Survey</td>
</tr>
<tr>
<td>E-Videos</td>
<td>Cap-and-suction hemoclip closure of an iatrogenic cricopharyngeal perforation</td>
</tr>
<tr>
<td>E-Videos</td>
<td>Endoscopic stag beetle knife treatment for symptomatic Zenker´s diverticulum</td>
</tr>
<tr>
<td>E-Videos</td>
<td>“Floating” method and “lifting-up” method: novel techniques of gastric endoscopic submucosal dissection for treating difficult-to-approach lesions</td>
</tr>
<tr>
<td>E-Videos</td>
<td>Perforation and bleeding during an underwater endoscopic mucosal resection of a large colonic lesion</td>
</tr>
<tr>
<td>E-Videos</td>
<td>Gallstone impaction at the orifice of the duct of Wirsung successfully treated via needle-knife papillotomy</td>
</tr>
<tr>
<td>Letter to the Editor</td>
<td>Transpancreatic biliary sphincterotomy: justified or overkill?</td>
</tr>
<tr>
<td>Reply to Letter to the Editor</td>
<td>Response to Sundaram and Jagtap</td>
</tr>
<tr>
<td>--------------------------------</td>
<td>---------------------------------</td>
</tr>
<tr>
<td>Letter to the Editor</td>
<td>Comments on: ‘Fine-needle aspiration of pancreatic cystic lesions: a randomized study with long-term follow-up comparing standard and flexible needles’</td>
</tr>
<tr>
<td>Reply to Letter to the Editor</td>
<td>Reply to Krishna and Jain</td>
</tr>
