Organic Materials

Submit your manuscript now!
The open access journal Organic Materials aims to broaden the knowledge in the interdisciplinary field of chemistry and materials. Both experimental and theoretical studies, the implementation of novel synthetic methods or the synthesis of new materials, as well as applications of new or existing materials are considered for publication.

Main areas of research covered:
- Organic porous materials
- Supramolecular chemistry
- Crystal engineering
- Liquid crystals
- Self-assembly
- Organic electronics
- Molecular machines
- Sensors
- Functional polymers
- Polycyclic aromatics

Accepted article types:
- Original articles
- Short communications
- Reviews
- Short reviews
- Practical reviews

Organic Materials is a gold open access, online-only journal. Articles are published on the Thieme E-Journal platform.
Why publish in Organic Materials?

The family-owned Thieme Group has been publishing highly evaluated science for professional chemists since 1909. Organic Materials continues this tradition and provides a reliable platform for researchers working in the dynamic field of organic chemistry in material science. The open access journal supports this community and gives your work the visibility and impact it deserves.

Why do our authors trust the “Thieme Family”?

- Our editorial team provides excellent service with a personal touch. At Thieme, you deal with people who care about you and your research.
- We actively support researchers in our award program, which includes several prestigious chemistry awards.
- We promote our authors and their work on social media and in our online feature Synform.

Editor-in-Chief

Prof. Dr. Michael Mastalerz  
Institute of Organic Chemistry  
Ruprecht-Karls-University Heidelberg  
Germany

Editorial Board

Prof. Dr. Pol Besenius  
Institute of Organic Chemistry  
Johannes-Gutenberg-University Mainz  
Germany

Prof. Dr. Xiaozhang Zhu  
Institute of Chemistry  
Chinese Academy of Sciences  
Beijing, P. R. of China

Advisory Board

Prof. Dr. Franz Faupel  
Institute for Materials Science  
Christian-Albrechts-University Kiel  
Germany

Assoc. Prof. Dr. Ognjen Miljanic  
Department of Chemistry  
University of Houston  
Texas, USA

Prof. Dr. Timothy M. Swager  
Department of Chemistry  
Massachusetts Institute of Technology  
Cambridge, MA, USA

Managing Editor

Dr. Giuliana Rubulotta  
Georg Thieme Verlag KG  
Stuttgart, Germany

Our editors are experts in the field of organic materials and look forward to receiving your manuscripts!
