Covered Journals

SYNFACTS currently covers more than 30 journals that publish original research in the field of synthetic chemistry, including:

Advanced Synthesis and Catalysis
 Angewandte Chemie International Edition
 Chemical Communications
 Chemistry A European Journal
 European Journal of Organic Chemistry
 Journal of the American Chemical Society
 Journal of Organic Chemistry
 Nature
 Organic and Biomolecular Chemistry
 Organic Letters
 Organic Process Research & Development
 Organometallics
 Science
 Synlett
 Synthesis
 Tetrahedron
 Tetrahedron: Asymmetry
 Tetrahedron Letters

Article Identifier

At the bottom of the first page of each article, an article identifier shows additional details for the article such as online publication date, Digital Object Identifier (DOI) and manuscript number for internal reference (Art ID).

The DOI provides the possibility to permanently identify documents in digital networking systems and should be used when referring to material published only in electronic format. More information on the DOI can be found at <http://www.doi.org>, the Web site of the International DOI Foundation.

Journal Policy

Product names which are in fact registered trademarks may not have been specifically designated as such in every case. Thus, in those cases where a product has been referred to by its registered trademark it cannot be concluded that the name used is public domain. The same applies as regards patents or registered designs.
