General Information

Experimental and Clinical Endocrinology and Diabetes; **ISSN 0947-7349**, is published ten times per year. The rate of subscription is invoiced in advance at the end of the year for the following year and becomes due for payment for the full calendar year. Subscriptions are automatically extended each year unless notice of cancellation is received from the subscriber prior to September 30 of each year (applies to Germany, Austria, and Switzerland only).

Subscriptions from Countries Outside the American Continents

Order from Georg Thieme Verlag KG, Rüdigerstraße 14, D-70469 Stuttgart; P.O. Box 30 11 20, D-70451 Stuttgart; phone +49-711-8931-421; fax +49-711-8931-410;
E-mail: custserv@thieme.de.
Subscription rates for 2007: 386,00 EUR plus postage: Germany (D) 28,80 EUR; Surface (Europe) 40,80 EUR; Rest of World (excl. North, Central and South America) 58,80 EUR. Single issue price (D) 44,00 EUR.

Subscribers are asked to inform the publisher immediately in case of address changes in order to ensure correct delivery of the journal. The Deutsche Post AG is entitled to inform the publisher of address changes. Note according to § 4 of the German "Postdienst-Datenschutz-Verordnung": Objection to this transmission of data can be submitted to the address of the publisher.

Subscriptions from North, Central and South America

Order from Thieme New York, 333 Seventh Avenue, New York, NY 10001, USA. Order toll free +1-800-782-3488 (U.S. only) or +1-212-760-0888, fax +1-212-947-0108, E-mail: customerservice@thieme.com.

Manuscripts

For details regarding manuscript submission please refer to "Instructions for Authors". In principle only papers will be accepted which have not been published previously, domestically or abroad. Furthermore, manuscripts may not be offered to other publications at the same time as they are under consideration for this journal. With the acceptance of a manuscript the publishers acquire for the duration of the legal period of protection the exclusive right for the use of the rights of exploitation according to German copyright law, especially also the rights of translation, of duplication, and of electronic data processing. Authors will receive 25 reprints free.

Copyright

This journal, including all individual contributions and illustrations published therein, is legally protected by copyright for the duration of the copyright period. Any use, exploitation or commercialization outside the narrow limits set by copyright legislation, without the publisher's consent, is illegal and liable to criminal prosecution. This applies in particular to photostat reproduction, copyright, cyclo-styling, mimeographing or duplication of any kind, translating, preparation of microfilms, and electronic data processing and storage.

For Users in the USA

Authorization of photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by Georg Thieme Verlag KG Stuttgart. New York for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of \$ 10.00 per copy of each article is paid directly to CCC, 22 Rosewood Drive, Danvers, MA 01923, 0947-7349/2003. For reprint information in the US, please contact International Reprint Corporation, 287 East "H" St., Benicia, CA 94,510, USA; phone +1-707-746-8740, fax +1-707-746-1643, E-Mail: irc@intlreprints.com.

Online

The scientific text of this journal is available online through Thieme-connect, <http://www.thieme-connect.de>.

Access to Thieme-connect is free of charge for personal subscribers. Authors may choose to allow, for a fee, free general access to their pages online for details, please contact Bernd Hess, E-Mail: sales@thieme-connect.de. Customers from North, Central and South America and Canada please contact Alexandra Williams, E-mail: awilliams@thieme.com.

Important Note

Medicine is an ever-changing science undergoing continual development. Research and clinical experience are continually expanding our knowledge, in particular our knowledge of proper treatment and drug therapy. Insofar as this journal mentions any dosage or application, readers may rest assured that the authors, editors and publishers have made every effort to ensure that such references are in accordance with the state of knowledge at the time of production of the journal.

Nevertheless this does not involve, imply, or express any guarantee or responsibility on the part of the publishers in respect of any dosage instructions and forms of application stated in the journal. Every user is requested to examine carefully the manufacturer's leaflets accompanying each drug and to check, if necessary in consultation with a physician or specialist, whether the dosage schedules mentioned therein or the contraindications stated by the manufacturers differ from the statements made in the present journal. Such examination is particularly important with drugs that are either rarely used or have been newly released on the market.

Every dosage schedule or every form of application use is entirely at the user's own risk and responsibility. The authors and publishers request every user to report to the publishers any discrepancies or inaccuracies noticed.

Product Names

Product names which are registered trademarks may not have been specifically designated as such in every case. In case that a production has been referred to by its registered trademark it cannot be concluded that the name used is in the public domain. The same applies to patents and registered design.
