

MedOne Education

Empowering medical minds
from day one and beyond

MedOne Education is a powerful medical e-learning platform that covers every course in the medical school curriculum. By combining expert information with stunning visuals, the platform serves as both a learning and teaching tool. Research made easy — at school, home, work or on the go.

MedOne Education is an exceptional resource for learning, review and research in medicine and the life sciences. Users have access to illustrated full-color medical textbooks covering anatomy, basic sciences, clinical sciences, and radiology. It not only features review titles, MedOne Education also includes illustrated full-color medical textbooks covering anatomy, basic sciences, clinical sciences, dentistry, osteopathic medicine, physical therapy, radiology and USMLE® test prep in addition to downloadable images and video content.

What MedOne can do

For the medical student

- Instant access to all required textbooks
- Ideal for quick reference or in-depth review
- Easily accessible — even offline — the perfect study companion
- Covers the clinical and scientific topics needed to succeed

For the instructor

- Require titles with no cost to students
- Easily download images for lectures
- Create custom playlists for every course
- Add notes for future reference

For the institution

- Invite students to learn at anytime in any place
- Improve efficient teaching
- Appeal to prospective students and faculty

MedOne Playlists

With the playlist feature, users can create customized content sets and collections. Using MedOne's resources, external links, or personal files, users can put together individual collections of information. Playlists can be kept private, shared with others from your institution, or shared with all MedOne users across institutions.
