

Introducing the new MedOne TTAA

We are excited to announce that Thieme Teaching Assistant Anatomy has been migrated to MedOne, our state-of-the-art multimedia platform, offering improved features and functionality.

What's new:

- Faster navigation via TOC and hot spot image
- Faster and improved search with anatomy and e-book filter
- Improved content quality with separate English and Latin images
- Collect images in personal playlists and share them with other users
- Personalized favorites, playlists, and notes
- Image comparison feature
- E-Books available on the same website if licensed
- Up-to-date design, usability, and regular application updates
- Use the same personal account for MedOne TTAA and all our other MedOne offerings
- Institutional Shibboleth/OpenAthens login available

Here's what you can expect:

- Access to 2800+ images of Thieme's Premium Anatomy titles:
 - Gilroy et al.: Atlas of Anatomy, 4th ed.
 - Gilroy et al.: Atlas of Anatomy, 4th ed., Latin Nomenclature (will be added mid of 2023)
 - Schuenke et al.: THIEME Atlas of Anatomy, 3rd ed., vol. 1–3
 - Schuenke et al.: THIEME Atlas of Anatomy, 3rd ed., vol. 1–3, Latin Nomenclature (will be added mid of 2023)
 - Baker et al.: Anatomy for Dental Medicine, 3rd ed.
- Customizable images:
 - Remove individual text labels and leader lines
 - Change label font, image size, and cutout
- Download images in JPG and Powerpoint format

Switch to the new MedOne TTAA today and experience faster, more personalized, and feature-rich image browsing!
