

Thieme Clinical Collections

The prime resource for essential clinical E-Books

Available for purchase on a perpetual access & ownership licensing model.

Thieme Clinical Collections

Thieme Clinical Collections

provide online access to Thieme's renowned book program in clinical medicine and is available to purchase on a perpetual access & ownership licensing model. Front list titles are available for purchase in advance of publication.

The Collections contain an extensive assortment of E-Books carefully selected to provide the students, researchers, and clinicians at your institution with thorough coverage of all major medical fields. Each title is representative of Thieme's commitment to the highest standard of quality in the content and presentation of all of its products.

The Collections reflect Thieme's status as a global market leader in many specialties including neurosurgery, radiology, dentistry and plastic surgery. This includes a variety of co-publications with the American Association of Neurological Surgeons, one of the foremost professional societies in the field.

In addition, the Collections feature an impressive selection of titles in orthopedic surgery, otolaryngology, audiology, neurology, internal medicine, ophthalmology, and more.

Full-color illustrations, clinical photographs, and high-resolution radiographs enhance the books throughout. Every title in the Collections is representative of Thieme's reputation for publishing practical, lavishly illustrated references that supply clinicians with the focused guidance they need to tackle the multitude of challenging situations they face every day.

Introduction

Arterial Anatomy

The intracranial arterial system is divided into the anterior and posterior circulations. The *anterior circulation* includes the internal carotid artery and its branches as well the anterior and middle cerebral arteries and anterior and posterior communicating arteries. The *posterior circulation* includes the vertebral arteries, basilar artery, and posterior cerebral arteries ([Fig. 5.1](#)).
