## Thieme E-Journals

Designed for the research and education needs of academic institutions, medical schools, hospitals, and the healthcare, pharmaceutical and chemical industries, Thieme E-Journals offer your institution access to all issues and backfiles currently available.

Our E-Journals' interface is a sophisticated web service presenting tables of contents, abstracts and full text in a highquality interactive format.

You will be kept abreast of cutting edge developments with fast and efficient online delivery and powerful searching tools. Users may register to benefit from a multitude of services including:

- Customized interface
- eFirst and table of contents alerting services
- SDI (Selective Dissemination of Information) – alerting you to important results in your field of interest
- RSS feeds

Searches within Thieme E-Journals and access to the tables of contents and abstracts are provided free of charge for all users.

## In- and Outbound Linking

Thieme E-Journals are fully Open-URL compatible (SFX source and target) and can be integrated in the library's linksolver.

Thieme E-Journals feature rich interlinking to major resources such as Medline (PubMed), Chemport, Web of Science, and more.

Through CrossRef you have direct access to more than 20 million original articles from 15,000 journals.

Search within a journal or all journals

eFirst

The screenshot displays the Thieme E-Journals interface for the journal 'Endoscopy'. At the top, there is a navigation menu with options: 'Journal', 'Authors', 'Subscription', 'Special Section', and 'Job Board'. Below the menu is the journal cover for 'Endoscopy'. A search bar is visible, with a red line indicating the search functionality. The main content area shows a list of articles, including one by Bang, J. Y.; Magee, S. H. titled 'Randomized trial endoscopic ultras mass lesions'. The article list includes publication dates, original article titles, and full-text links. A red line connects the 'eFirst' callout to the 'eFirst' tab in the article list. Another red line connects the 'View full text in HTML or PDF formats' callout to the 'Full Text' button for an article. The interface also shows a 'Year' dropdown menu set to '2013', an 'Issue' list, and a 'Related Journals' section.

View full text in HTML or PDF formats

# Full-text review journals in medicine, chemistry and life science.

The screenshot shows the Thieme E-Journals website interface. Four blue callout boxes with red lines pointing to specific features are overlaid on the page:

- Create a personal account**: Points to the 'not logged in' status and the 'Login' link.
- Advanced search options**: Points to the search bar and the 'Full-text search' dropdown menu.
- Video available**: Points to a video icon next to a PDF download button for an article.
- RSS and Social Bookmarking**: Points to the RSS, Facebook, and Twitter icons in the top right corner.

The website content includes a navigation menu (DE, EN, Home, Journals, Help, Contact, E-Book Library), a search bar, a shopping cart icon, and a list of articles with their titles, authors, and PDF download options.

## Backfiles

Thieme E-Journal Backfiles provide you with access to crucial scientific and medical information directly to your desktop, ensuring that your institution's collection is comprehensive and complete.

Through Thieme E-Journals, you have direct access to indispensable articles of the most important Thieme journals. Corporations, academic institutions and hospitals can license Backfiles by purchasing them on an individual basis or as a complete package, paying a one-time fee.

### Medicine

An online license includes access to backfiles from medical journal articles published from 2000 onwards. In addition, for most of Thieme Journals, access to backfiles back to Volume 1, Issue 1 can be purchased.

### Chemistry

You can view the full text of documents published from 1969 to the present day for SYNTHESIS and from 1989 for SYNLETT covering more than 23,000 carefully evaluated articles.

### e► First

**eFirst** is our service for the advanced online publication of articles. Peer-reviewed and accepted papers appear on average four weeks before they are published in print providing immediate access to the most recent up-to-date research publications.

## Administration

To aid administration of your library resource, Thieme E-Journals provide usage statistics in compliance with the recommendations of the  initiative ([www.projectcounter.org](http://www.projectcounter.org)).

**Thieme's E-Journal collection spans over 130 research and review journals in medicine, chemistry and life science, many of them published in the English language:**

- American Journal of Perinatology
  - Drug Research
  - Clinics in Colon and Rectal Surgery
  - Craniomaxillofacial Trauma and Reconstruction
  - Endoscopy
  - European Journal of Pediatric Surgery
