

MedOne Neurosurgery

**The world's most
comprehensive
online neurosurgical
resource!**

MedOne. Empower Yourself.

Thieme

MedOne Neurosurgery

MedOne is a powerful platform, perfect for residents and experienced specialists alike. Combining expert information with stunning visuals, it works as both a learning and teaching tool. For busy residents and specialists, MedOne makes it easy to complete research whether at home, at work, or on the go.

MedOne Neurosurgery keeps neurosurgeons' best interests in mind. As the global market leader in the field, Thieme stays at the forefront of developments to keep practitioners around the world informed about the latest innovations.

For the neurosurgeon

- ▶ Connect to innovative research
- ▶ Develop additional clinical skills
- ▶ Prepare for an upcoming surgery
- ▶ Access up-to-date information from global leaders

For the resident

- ▶ Prepare for board exams at your own pace
- ▶ Study a breadth of cases
- ▶ Review core topics before rounds
- ▶ Understand the latest clinical techniques and surgical procedures

For the hospital or department

- ▶ Promote constant learning among staff
- ▶ Improve efficient teaching and quality of care
- ▶ Grow individual competencies and understanding
- ▶ Increase your appeal to prospective employees

E-Books

It's never been easier to access Thieme's extensive collection of neurosurgery e-books. With versatile viewing modes, you can read directly in your browser or download and print PDFs of individual chapters. As you read, quickly zoom in on images, play video content, and highlight text to add personal notes. New e-books are frequently added to the MedOne library, so you always have the latest information on hand.

Procedures

Before heading into surgery, be sure to log in to MedOne and review individual techniques. With step-by-step attention to preoperative, operative, and postoperative care, you can focus on every stage of your training. Each procedure includes clickable images and source references, making it easy to study.

Media

When words aren't enough, the images and videos in MedOne are always at your disposal. You can quickly find and compare images in your browser or download media directly to a PDF or PowerPoint file to enhance any presentation. Legends and links allow you to refer back to the source, so you can include the appropriate citations.

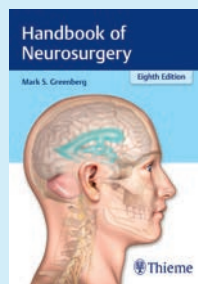

E-Journals

Round out your studies as you keep up with research and write papers using the latest journal articles. With an integrated search through Thieme's journals and the PubMed database, you can easily find relevant information when you look for new and exciting innovations.

Cases

With MedOne, you can work through real patient cases from start to finish, so you know what to expect in your exams and within the clinic. Learn how to treat the patient, analyze the imaging, and see the results, all as you test yourself using the questions included in each case.

Includes Greenberg's Handbook of Neurosurgery!

MedOne Neurosurgery Plus provides you with additional access to *Handbook of Neurosurgery, Eighth Edition* by Mark Greenberg.

The neurosurgical reference you always want at hand!

Training Center

When it comes to tests, practice makes perfect. MedOne lets you quiz yourself with a variety of question and answer sets in the training center. You can monitor your progress and mark the questions you want to repeat, so you know which topics to focus on in your studies.

MedOne@Home

For a personalized experience, all departmental licenses include MedOne@Home offsite access. Once you set up your own username, you can start to create personal notes and highlights, bookmark pages, and track your progress in the training center. Whether you're at home or on the go, all you need is internet access to use the great features of MedOne with MedOne@Home.

Search

Using ultra-modern search technology, you can scan the entire database for all mentions of a specific topic or add filters to narrow your search. The "mega complete" search function offers you suggestions pulled from various sources, so you can quickly locate the most relevant results.

Responsive Design

Reading online no longer means being confined to a desktop. MedOne automatically adapts to your screen size, so you can effortlessly access all of the great content from your mobile phone or tablet without missing a word.
